

Kanban Foundation for Knowledge Work

CONCENTRIC CIRCLE CONSULTING's *Kanban Foundation for Knowledge Work* class prepares the participant for implementing and using Kanban for a team or for a larger multi-team organization. It focuses on teams doing knowledge work.

Class format The course is delivered on line. It consists of a series of short, modular video presentations, playable on demand; exercises to illustrate the application of the principles, values and practices described in the presentations; a forum for the exchange of questions and ideas among the participants and the trainer; and live sessions for exchanging with the trainer.

Benefits

- Participants will understand the use of kanban for gaining the trust of customers, for continual improvement and for reducing lead times
- Participants will understand the benefits of a pull method for organizing work and the benefits of limited work in progress
- Participants will gain sufficient information to start a Kanban initiative for a team
- Participants will be able to explain to their colleagues how kanban may be of benefit to their organization.

Duration The course lectures are delivered on demand, so there is no fixed duration. The entire course must be completed within six months of registration.

Targeted audience This course targets beginners, or false beginners, with little or no knowledge of kanban. A basic understanding of organizing work in teams is expected.

Prerequisites There are no formal knowledge or experience prerequisites for this course. Participants must have an Internet connection that supports streaming video.

Subject Matter

- The origins of kanban
- Understanding flow
- Kanban values
- Kanban principles
- Kanban practices
- Designing kanban boards
- Designing kanban cards
- Implementing kanban
- Overview of Kanban software tools
